

Aquidneck Land Trust

ANNUAL REPORT | FISCAL YEAR 2013

Linda Ujifusa
Board of Trustees, Chair

Dear Friends of Aquidneck Land Trust:

It has been a very exciting year for ALT. Since our last Annual Meeting, ALT has conserved additional priority watershed protection acres and now successfully stewards a total of 2,425 acres of open space for the lasting benefit of our community. In addition, I am thrilled to announce that in April 2013, the ALT Board unanimously voted to hire Mr. Charles ("Chuck") Allott as our new permanent Executive Director. Chuck, who served as ALT's Interim Executive Director since December 2012, is an attorney, long-time resident of Aquidneck Island, and one of ALT's founders and most active volunteers. His broad and deep knowledge of our community and land conservation has allowed him to accomplish an incredible amount during his short tenure. We are indeed fortunate to have Chuck lead ALT.

In the past year, the Board has focused on reviewing and improving our strategy to accomplish our mission. While we are pleased that there are several new conservation projects in the pipeline, as well as new education and outreach initiatives, it has become clear that there is much work left for ALT to accomplish and our pace must increase. There are 4,500 priority acres left to conserve on Aquidneck Island. If we continue at our average past rate of conservation, we will not complete our work for another 45 years. It is certain that these properties will not be available to conserve for that amount of time. As Chuck describes in his letter which follows, it is urgent that ALT act more quickly - we are making plans to do so - but we need your help.

It has been a great privilege to serve as Board Chair for the past two years. I want to express my deep appreciation for the dedication, vision, intelligence and kindness of ALT staff, volunteers, donors, land owners, and our public and private partners. We are blessed to live in a community where people care so deeply for their environment and each other.

Thank you.

Linda L Ujifusa

Dear ALT Friends and Supporters,

It has been an incredible privilege to serve as Interim Executive Director since December 2012 and permanent ED since April 2013. I am happy to report that ALT has continued to pursue aggressively its mission of protecting the drinking water, agriculture, recreation, scenic vistas and overall quality of life on Aquidneck Island. We conserved over 12 acres of priority watershed protection parcels in the last fiscal year and have multiple land conservation projects scheduled to close in the next few months. In addition, our Stewardship Fund received a very generous gift of approximately \$2.8 million dollars from the Marcella Clark McCormick Newport Trust that helps ensure ALT will continue to properly care for our 2429 acres of conserved property in perpetuity. We have also conducted a very successful education and outreach program, revamped our advancement strategy, and recruited many excellent volunteers, including our new class of trustees.

Despite our many successes, however, I must note that Aquidneck Island's ecosystem is at a tipping point. Studies have shown that if greater than 25% of a watershed is developed with impervious cover (rooftops, patios, driveways, parking lots and roads) water quality impacts can be so severe that it may not be possible to restore water quality to pre-existing conditions. Some of our drinking water watersheds are already well over that tipping point, but most are not yet there. Although the exact tipping points of other areas of conservation are not known, it is certainly fair to say that if we do not save more of the remaining priority farm land in Portsmouth and Middletown, we may lose the ability to provide adequate local, secure, and sustainable food sources to our island residents. Similarly, if we cannot conserve more of Newport's cultural, historic or recreational properties, many of which are now on the market, we may lose forever the multiple benefits these properties provide. The real estate market has slowed, but we know that it is only a matter of time before the next development boom on Aquidneck Island; the recently reported impending threat of rail service serves only to accelerate this development boom. Clearly, the need for land preservation has never been greater. In the next year, ALT will focus on protecting the ecosystems of Aquidneck Island because it is the most effective and least

expensive way to protect the health and welfare of our island's residents. The goal of protecting open space has never been just about protecting luxuries for a few individuals, it has and always will be to create a green infrastructure that will protect the necessities that benefit us all – clean water, fresh food, recreation, and scenic vistas. More than ever before, the work of ALT matters. More than ever before, we ask for your generous help.

Thank you.

Charles B. Allott, *Executive Director*

Founded in 1990, the Land Trust's first conservation easement was placed on the historic Slocum estate on Bellevue Avenue. Since that time the Land trust has conserved over 2,000 acres with many landowners. We gratefully thank these very special individuals, families, businesses, neighborhood associations, municipalities, and other government agencies who have partnered with us to preserve and steward their land in perpetuity. Their vision for the future, and appreciation of the past, leave a legacy for all to enjoy.

OUR MISSION

“Preserving the Island’s open spaces and natural character for the lasting benefit of our community.”

OUR VALUES

The Aquidneck Land Trust believes that we must take a holistic approach to land conservation if we are to help our island community achieve a sustainable future. Therefore, ALT works to protect a number of natural resource types that we depend upon as a species (wildlife habitat, agricultural land, water resource areas, outdoor recreational space, scenic vistas, etc.). In this work, ALT is guided by its values: Integrity; Environmental Consciousness; Embracing Community as a Partner; Respect and Stewardship of the Land; and Volunteerism. ALT was founded as a 501 (c)(3) not-for-profit organization in 1990.

The Aquidneck Land Trust preserves the Island’s open spaces and natural character for the lasting benefit of our community.
