 **Farmland Parcels**

 **Conserved Farms**

Farmland parcels include both working farms and vacant or fallow farmland. Data is at the parcel level. Highlighted parcels may have multiple land covers, but include at least partial farmland.

Farmland Data:  
Original dataset from Aquidneck Island Planning Commission's Open Space Mapping Project, 2012.  
Data was then accuracy checked and updated through ALT's existing knowledge and aerial imagery. Some error may still exist in farmland classification.
